## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election without traverse of Group I, claims 1 and 2, in the reply filed on June 15, 2005 is acknowledged.
2. Claims 3-5 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected group, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on June 15, 2005.

### *Claim Objections*

3. Claim 1 is objected to because of the following informalities:  
Claim 1 (line 1) recites "comprising". It should recite --comprising: --.  
For the purpose of examining the application, it is assumed that appropriate correction has been made.

### *Claim Rejections - 35 USC § 102*

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Orr (US 1,214,709).

As to claim 1, Orr discloses a wire rope and socket combination; comprising:

a wire rope socket **10**:

a rope formed of strands **a** of twisted wires extending into the wire rope socket;

strands **a**<sup>1</sup> of the twisted wires (but not all of the strands; strand **a**<sup>2</sup> not being bent 180 degrees) being bent over 180 degrees within the wire rope socket to provide a selected breaking strength of the wire rope socket; and

babbit **19** securing the rope in the wire rope socket (Figures 1 and 4).

As to claim 2, Orr discloses a wire rope and socket combination in which the wire rope socket **10** has a tapered bore, and the bent strands **a**<sup>1</sup> are bent in the direction of narrowing of the tapered bore (Figure 1).

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to the applicant's disclosure. The following patents show the state of the art with respect to wire rope combinations:

Shaw (US 5,136,755), Wirkkala (US 1,496,142), Vanasse et al. (US 5,539,960) and McVey (US 4,395,798) are cited for pertaining to combinations comprising a wire rope socket; and a rope bent over 180 degrees within the wire rope socket.
